

AURORA MOBILE APP QUICK START GUIDE

For Aurora App Version 1.7.4
And Aurora Software 1.10.0

Getting Started

1. Search “Aurora Limbic Media” in the app store and download the Aurora Mobile App
2. Connect your mobile device to Aurora’s WiFi network (Aurora-XXXXXX); default password “myaurora”
3. Connect the Mobile App to Aurora; default password “myaurora”
4. Change your password at Current Device > Device Settings > Security
5. Check audio settings at Current Device > Device Settings > Audio Control
6. Set up lighting protocols at Current Device > Device Settings > Protocols
7. Using Live Mode:
 - a. Access Global Settings in the top-right of the screen—slider icon
 - b. Change pattern to affect Aurora’s sound-to-light mapping scheme
 - c. Change palette to affect the displayed color scheme
 - d. Change parameters to tune in Aurora’s sound-to-light mapping characteristics.
8. Using Show Mode:
 - i. Touch the plus sign icon to make a new cue
 - j. Touch the middle of a cue to edit it
 - k. Touch the play icon to begin playback at a specific cue
 - l. Touch the garbage can icon to delete a cue
 - m. Touch and drag cues by the grab point on the right side of the cue.
